

Environmental Parent Questionnaire

Please describe your child's environment by answering the following questions:

Dear Parent,

We would like to welcome you and your child to your new preschool. We are excited to work with you and your child to help them achieve their greatest potential.

You are the expert on your child and as such we would like to learn more from you about what would help your child to settle into their new preschool in the easiest and best possible way.

Student's Name: _____

Date: _____

Parent / Caregiver: _____

Please answer the following questions in relation to your child:

1. How does your child react to new environments in general?

2. What do you find helps your child to settle into new environments?

3. How does your child communicate their needs at present eg crying, screaming, pointing, talking, vocalising etc?

Environmental Parent Questionnaire

Please describe your child's communication skills by answering the following questions:

4. How do you know when your child is upset or uncomfortable? What does he/she do? What helps your child to calm and reassure your child?

5. How do you know when your child is happy and enjoying something? What does he/she do? What do you do to engage in this happy experience with your child?

6. Has your child specific sensory inputs that he/she likes and are calming for your child? Also does your child have specific sensory inputs that he/she doesn't like?

7. What are your hopes and concerns for your child settling into preschool?
